  - There'll be a 30-minute lunch break each day.
  - The hotel has eateries for judges and students to grab a quick bite
  - Danny Cantrell working tab – thank you!
  - Judge buyout will not be permitted.
  - Due to overflow, rounds might happen at both hotels
    - But the sister hotel is right across the street from tournament hotel
    - Aiming to set up round locations based on event categories to make it easier
  - Please let us know anything that can help! Such as:
    - Email problems, text problems, WIFI problems, etc.
    - This can be from past experience or concerns moving forward – the EC team wants to help address, be best prepared, and provide a great tournament experience.

  - Working on securing excursion discounts for IFA attendees
  - Planning IFA wide excursion days together
  - Audience Comments:
    - Can we add dietary restriction considerate options to the brochure? Yes.
    - Let's consider excursion dates in consideration of flight prices (pre or post)

## 7) New Business

- a. Future of IFA attending NCA conventions

- NCA expense and other concerns
- Ideas: Do we have our business meeting via Zoom? Or continue presence at NCA?
- Audience Comments:
  - A lot of chatter across the board of all forensics groups at nca – few groups are considering leaving nca due to lack of nca prioritization
  - Maybe instead of leaving, we advocate for better forensics inclusion? Since we should encourage more forensics scholars.
  - It's nice to be able to bring our students to present at these panels.
  - Maybe business meetings do not need to be held at nca. We can still go to nca, bring students, push forensics research and panels.
  - Idea to unite the forensics groups and form a separate conference – there's talks of a forensics development conference – first one will be virtual
  - Until we have our venues sorted, let's stay at nca, but maybe instead of a business meeting as one of the two slots, let's have both be forensics research ones
- b. Including LD for future IFA tournaments (John Loo)
  - DOF SDSU - Idea stemmed from LD community discussions
  - Audience Comments:
    - Concern over estimate for rooms, judges, etc. But EC clarified that the tournament allows for just 1 debate entry – so it'll be about the same estimate
    - Concern over judging pool
    - Concern that it'll water down other debate event entries
    - Historical Context: in the past, when adding an event, it ends up needing its own slot (LD and IPDA were proposed as IE and now have their own slots)
    - Maybe we can't be all things for all people
- c. Site Committee Update – 27/28 Tournament Locations (Trent Webb)
  - Shoutout to site committee and Trent – progressive discussions on logistics and solutions
  - Few locations being presented for 2027 and 2028 (we will vote in Athens)
    - Lisbon, Prague, Argentina, Warsaw
    - But still in the process of bids
    - Maybe revisit Mexico City? And there's preliminary interest in exploring Thailand
    - Audience Comments:
      - What about a variety of continents, such as Africa? The committee did try, it was actually a first priority, but the bid costs were impossible.
  - Moving forward, planning 2 years out
    - Bids will be sent out in advance for people to review before the vote
    - Audience Comments:
      - Audience is a big fan of this to help prep schools, travel, etc.
- d. IFA Constitution (Bryan Malinis)
  - New Rules/Procedures Committee to create a stronger foundation to the constitution
    - Volunteered: Bryan Malinas, Kim Perigo, Jim Dobson, Collette Blumer
    - Please contact the EC Team if you're interested to help
  - Audience
    - What's the process look like to make amendments? Answer in article 8!
    - Concern of over legislation

8) Meeting Adjourned
